## Thank You from the General Conference Chair

---

Dear Ann,

I thank you for your participation at the 30th Digital Avionics Systems Conference (DASC) in Seattle. I received a lot of great feedback from many of you stating that the conference provided value and opportunity. I am always impressed with the quality of the technical papers and speaker presentations, and this year was no exception. I always enjoy the opportunity to meet with my existing colleagues. Even more importantly, I was able to meet new people that added to my array of industry contacts. It is evident to me that everyone at the DASC shares a passion for our industry.

I would like to join Roger Oliva in welcoming you to the 31st DASC to be held in Williamsburg, Virginia on 14-18 October 2012. Conference planning has begun. Start planning your abstracts for the papers you wish to publish next year. Contact Steve Young ([steven.d.young@nasa.gov](mailto:steven.d.young@nasa.gov)), the technical program chair, if you wish to get involved as a session chair or track chair. Contact Glen Logan ([glen.logan@comcast.net](mailto:glen.logan@comcast.net)), the Sponsors and Exhibits Chair, if your organization wishes to become a sponsor or exhibitor next year. Contact Roger Oliva ([roger.oliva@ieee.org](mailto:roger.oliva@ieee.org)), the general conference chair, if you wish to get involved in some other capacity.

As everyone returns to their respective organizations, I sincerely hope that DASC has given you some new information and tools to help you excel in your tasks. I look forward to seeing each of you next year as we "Project 60 Years of Digital Avionics Progress into the Future".

Regards,  
Chris Watkins  
30th DASC General Conference Chair
